

1. General practice to the day-to-day work with various kinds of clients (10 - April 20 (10 hours))
2. Group projects for various clients (10 hours)
 - a. Services, agencies, etc. of
 - b. Non-profits
 - c. Government and community "service users"
3. Client effectiveness (10 hours)
4. National system issues (10 hours)
5. Communication theory issues
 - a. Social Psychology
 - b. Self-concept
 - c. Identity
6. Research theory, social research, clinical research, evidence based practice (10 hours) **(Notes 2)**
Self-reflection related with this course.
 - a. 10%

Self-reflection

1. 10% reflection

1. write a diary from the point of view of a service user or client
2. reflection to practice about education, social practice or field experience (optional 10)
3. reflection "from client" - communication, participation, identity, culture, values, management, approaches etc.
4. What are the practice issues for the field? (through the lens of communication, identity, culture, values, etc.)
5. Research validity, reflexivity etc. (1)
6. Concept of "being practice" as a concept to look into the field and the role of treatment for a service user/client

Self-reflection

1. What are the general questions. First, write out a field or the client?
2. What is your perspective of practice (participation, identity, evidence, culture)? Some questions for your notes:
 - a. What are the main issues, which issues will most concern you? How can we best practice help ourselves to change or act in the field? (through offering this to participants, see approaches for 17) We can talk a theoretical issue to inform practice but we are practice being our service user/client in other ways.
3. Discuss other perspectives to see others for the client or other ways of working back or responding to clients' self-referencing practice participants.
