

their appointments that aren't absolutely necessary to be there.

2. Telemedicine! The doxy.me platform is working well. All providers and offices would be wise to consider using it, where applicable, for patient care. It will keep us connected to our patients, and them to us.
3. Employee hours. The clinic is committed to keep doing whatever possible to provide work hours for staff where reductions are inevitable, yet also not spend clinic resources unwisely. We can all work together through this as situations change daily. Look to your supervisors for guidance and direction.
4. Supervisors - in working with staff on reduced hours, please consider a smaller hit to the hours of all over a larger hit to the hours of a few. Share the love.
5. Chest xrays. When treating COVID suspected or tested patients who might need a chest xray, Davis hospital is poised to take them so they don't enter the clinic. Those patients should check in through the white tent outside the ER.
