- Davis hospital update on COVID Testing Guidelines. See attached.
- Home isolation after COVID testing. See attached from Candice Smith.
  - 5. Please be aware of touch points for patients and wipe down often.
    6. Employee protection please wear masks if ever you feel exposed and in need of protection
  - 7. Providers please don't instruct symptomatic patient to go straight to parking lot for COVID triage.

    Each patient now gets a TeleTriage visit by an FP, who will determine sending them there, and will
- undergo another visit by the respiratory doc. IF the patient gets to the parking lot on their own, we will handle it with them then.
- billing of Tele-visits.

## 3-27-20 change summary:

8. Tele-visit billing. Be sure to follow the e-billing protocol (billing template) sent last week for proper

- Pharmacy letter Please see <u>attached</u> letter from Shawn Spriggs about prescribing medications.
   Missionary quarantine for providers who are getting questions about returning 'LDS' missionary
- quarantine guideline, please see <u>attached</u> from Candice Smith.

  3. Chest xravs update from yesterday's update patient need to carry a hard copy order, wear a mask
