

2020 - 2021 Protocol - March 14, 2021

By: Dr. Gordon Smith

This update to the 2020-2021 protocol represents a collaborative effort with the CDC. The CDC recommendations are based on current evidence and are subject to change as more information becomes available. We will share any changes with the faculty and students as they become available.

COVID-19 is a disease that requires careful attention to the various options. Some of the options include: staying at home, wearing a face mask, and the following:

1. Stay at home
