Subject: COVID-19 Testing/Protocols

Dear Valued Stakeholders:

It is our goal to provide the best for your support in ensuring that your requests from your office for testing (including administration use of the Sevenson Hospital/Health Administration Testing Facility) are in accord with the Sevenson Health Care Testing/Protocols. Our facility is available to those qualified and properly authorized to receive the many approved COVID-19 specimens collected to ensure an accurate diagnosis results of test submissions for our patients and healthcare workers. We would greatly appreciate your cooperation in the correct and timely order code for those persons who need the services under testing. We do appreciate your interest from the time you first contact us and thank you for your thoughtful and helpful response.

Testing/Protocols

1. Submit all specimens **COVID-19** positive and **COVID-19** negative.

Then, regarding the **Administration** (see testing, testing protocols services as follows)
