

How do we change things throughout

Appointments/visit to monitor
Patients return to doctor for things to optimize
regain full health

Appointments/visit to monitor
- Ask for patient's explanation
- Ask for patient's concerns/needs/wishes/other questions
- Provide opportunities to the car stage with emphasis on
all of patient's needs

Multi-Responsibility

- Health centers for the coordination of the services for the Car Stage Protocol
- Insurance - identify each the CPT coding per each patient's degree before scheduling or other services offered
- Insurance needs for the use **and/or** CPT's as appropriate per doctor's orders (but with full understanding of what the code means and what it requires at point of care billing)
- Health centers to call into other Health Centers (if available) working with the coordinators and staff
- CPT coding only - code system built to guarantee with the medical code and better insurance the reimbursement to patient

Insurance Health Responsibility

- Check insurance plan physical components CPT codes from many
