

Dear Treasurer/Dean,

It is an honor to represent UCSD and having completed our program I would like to request that you be granted a license to the name of the program, as an interesting change to the UCSD's branding and our school's identity. We will no longer utilize either name at Laguna Hospital.

Please allow us to continue to use the name Laguna Hospital at UCSD and we will be able to use the name and the corresponding logo identity in the future as well (7/20/2020).

Since the program at Laguna Hospital Laguna Hospital was a public utility program, we will not be able to utilize the name anymore and we will have to change the name of the program and our logo. We will be able to use the name and logo of the program at UCSD for the program and public utility program as well as for the program at Laguna Hospital.

Thank you for your continued partnership with and support of the program at Laguna Hospital. We are grateful for the opportunity to partner with you and we will be able to use the name and logo of the program as well as for the program at Laguna Hospital.

Best regards,

Very respectfully,
[Name] Laguna Hospital
